First off, on behalf of DP Sales Management, let me be the first to say how excited and honored we are to be working with the Illinois Simmental Association, the Illinois Beef Expo, and the Mid-America Sale. We admire the state of Illinois as one of the top producing states for Simmental genetics and a great membership, and when combining those things makes our job easy. We admire the members and the Illinois Simmental Association board for their hard work and dedication to our breed.

With that being said, the Mid America Simmental Sale is one of the places this spring to purchase Simmental genetics. The breeders involved are dedicated to consigning opens, bred, bulls, and genetic lots that would be competitive if we were selling in Denver or Louisville. Also, these members; many who do showcase their genetics on the national level, know how important it is to support their state association and state events such as the Beef Expo events. The Mid America Sale sets high standards for the expo sales this spring.

Though we might be new this year to the Mid America Sale, we are ready to get to work for this great event. If you have any questions please contact any member of DP Sales or Sale Chairman Jim Stoutenborough. Of course if you can not be with us on sale day, feel free to contact us, members of the sale staff, or utilize DV Auctions. We look forward to being in Springfield for this first class event!

Doug Parke

Selling 5 embryos guaranteeing 2 pregnancies by Silveras Style or PVF All Payday if work is performed by a certified embryologist.

As for Nicolette N443 by now at age 12 she has proved herself as one of the premier donors of our breed. Countless top sellers over many different matings. Those top sellers are now raising top sellers and champions. The payday mating of this offering produced daughters that have topped sales and produced most recently champion Cow/calf at Illinois State Fair, World beef expo, and NAILE. Buy with confidence.

Selling 5 embryos guaranteeing 2 pregnancies by Mr TR Hammer or FBF1 Combustible if work is performed by a certified embryologist.

This offering of purebred embryos out of Nicolette N443 will be some of the newest genetic matings of this great cow. Pure excitement would be all you could say about the anticipation of either one of these matings. They are not to many donors on the list that are still producing valued genetics after 12 years. She truly has stood the test of time.

Selling 3 #1 embryos and guaranteeing 1 pregnancy if implantation is performed by a certified embryologist.

Just turning 4 years of age this young Built Right donor is putting together quite a resume including her \$18,000 daughter sold in the 2014 Illini Elite Sale. While having both volume and profile are challenging to accomplish, she does that and you can tell by her picture that she has that "leading edge" look and it is those perfect lines that she projects so well into her offspring making Y58H genetics some to invest in. You can do just that with the opportunity to lay in 3 of her embryos bred to Yardley High Regard.

Selling 3 embryos guaranteeing 1 pregnancy or 5 embryos guaranteeing 2 pregnancies if work is performed by a certified embryologist. We purchased 209Z from Eby Ranch as an open for Taylor to show in the Female Sale, and she has not been a disappointment. She had a great show career as an open and bred, but now as a cow its more than we imagined it would be. If you had the opportunity to see 209Z and her bull calf this summer you have seen how impressive this cow really is. She was crowned Champion Cow/Calf at the National Classic Junior Show, Champion Cow/Calf at North Central Junior Regional, and Reserve Champion Cow/Calf in the Open show at the IL State Fair. Here is a great opportunity to invest in these impressive genetics from this young Pays to Dream donor that has just started her donor career, with an API of 130.2, soundness, big middle, and wonderful flat shoulders she will stand the test of time. This is only the second flush on this young donor, so be in the drivers seat with this picture perfect uttered cow mated to High Regard. High Regard has produced many amazing offspring and this mating is definitely going to raise some eyebrows.

Selling 3 embryos guaranteeing 1 pregnancy or 5 embryos guaranteeing 2 pregnancies if work is performed by a certified embryologist. Mack made his debut din Denver in 2012 where we found out he was definitely named appropriately. Mack was simply named after a truck. His semen was limited and now his time has come again to offer his genetics to the public. With the impressive offspring that were in Denver this year, the future of this proven sire is tremendous. From the black baldies to the solid black and reds, they are simply amazing in their structural design and overall body dimension while still retaining the killer profile that everyone strives for. Mack has a must see video on you tube at Mack AF W273.

It's not everyday you have the opportunity to acquire a direct daughter of the legendary Miss Knockout 74T. To date, eighteen heifer calves have sold thru public auction and averaged over \$25,000 per head! They haven't just sold well, but they have backed up the hip by going on to win multiple National shows and become cornerstone donors themselves in some of the most respected Simmental programs in the country. B008 has all the pieces to do the same, with an out-cross pedigree and a no-miss cow family to ensure her breeding value will only escalate.

She has already seen the green shavings at NAILE, placing at the top of her class. A full sister was 16th overall bred and owned at the 2012 Simmental Junior Nationals. Another full sister was first in class at Eastern Regionals in 2013. A half sister recently was division champion at the Hoosier Beef Congress in Indiana this past December as a Sim Solution. She is as sound as they come, with plenty of bone and very striking from the profile. With an API of 123, breeding possibilities are endless for the new owner.

Here's a female that we are very proud to represent our program at the Mid America Simmental sale. 401B has already had success in the show ring being Reserve Calf Champion at the Illinois State Fair. This female carries an exceptional amount of rib shape and depth with an ample amount of muscle, bone and foot size. Backed by our cornerstone K336 donor, I am confident consistency in the blood will lead this female to the donor pen.

	8	3	68	95	9	23	56	0.16	0.8	110

In the last several Living Legacy sales, the Cream Soda family has definitely been one of the more popular cow families we offer, and producing females like B334 would be why. Big legged, square hipped, long necked and Hairy.... B334 is one of our favorites. This female didn't enjoy picture time all that much but she better get used to it because we believe she will need to pose for quite a few more of them down the road. The Uprising's have created quite a buzz in the industry with their style, look, mass and overall presence and B334 sure does fit the bill.

Is a prime example of why the Queen's Lucy family has been so popular over the years. We are extremely proud to offer this powerhouse show prospect by Milestone. B416 is out of our youngest donor HPF/BRAM Lucy Y001 "Zeva" this is already making a big impact. As many of you remember Zeva was the Champion Percentage female at the 2012 Simmental Breeders Sweepstakes. This female is elegantly designed with plenty of rib-shape and muscle while being situated on big boned, rugged frame. We can't wait to see how this female continues to develop, and feel she will be extremely competitive as a heavy bred.

Step Aside is a result of a flush that we shared with Dave Guyer on Jokes Promise and WS Step Up. This is the only female that we got from the mating. Step Up has established himself as a very unique Simmental bull for the times and Jokes Promise continues to produce the kind that would make her mother FC No Joke proud. This March female really combines the best of her parents. She has the power, length and quality of her mother and the look, balance and shape that Step Up is noted for. B024 is super correct in her shoulder and built really nice in her neck and head. She is nearly perfect in her rib shape and fore rib and extra big hipped while being beautiful down her top and very sound on the go. You be the judge, but we feel this one is darn nice.

FC No Joke - reference granddam

Not all the great ones sell in the fall. And this one is proof. It is with much thought and deliberation that we have decided to part with this Combustible heifer. She is everything I was hoping for when we decided to mate Miss Yardley W60 to FBF1 Combustible. This heifer has the look that demands your attention starting with her flawless skeletal design, coupled with a huge center rib shape, flawless fore rib and shoulder design while still being great in her heart and chest floor. The style, balance, and structural integrity of this heifer is second to none. This heifer is kid-broke and suitable for any showman. This heifer sure brings a lot to the table -- From her dam coming from the famed Gib Yardley herd plus sired by one of the most popular bulls on the market, FBF1 Combustible.

Selling 3 Guaranteeing I pregnancy if work is done by a certified embryologist.

Miss Beautiful has brought us nothing but success since she won the Open percentage show at the Simmental Breeder Sweepstakes in 2013. In 2014 her eggs were one of the high selling lots in Sweepstakes sale. The calves out of this mating will make you money and get you to the back drop without a doubt. Miss Beautiful averages 22 eggs per flush so fertility on these calves would not be worry in our mind!

Selling 2 sets of 3 embryos guaranteeing 1 pregnancy on each set if implantation is performed by a certified embryologist.

Star calves have continued to make a mark at sales and shows. We have had success with many different matings on this donor but we are extremely excited about the possibilities these two have to offer. Past embryo customers and owners of SVF Sheza Star S800 progeny have reported nothing but good things about these cattle. Buy with confidence.

Selling 3 guaranteeing 1 pregnancy if work is done by a certified embryologist.

The full sib to these eggs was last years donation lot to the National Classic that was sold through this Sale for \$20,000! After the success we had with this heifer we flushed her dam to make more of these outstanding Calves and got 30 number 1's. These calves will have tons of rib and eye appeal to them and offer a very stout skeleton from top to bottom. Bid with confidence on a proven matting!

If all the One Eyed Jack females look like Faith B9 then it is going to fun. Here is one that we are highly fond of and just hope she finds a good home. B9 is super long necked with the ideal look desired by the most critical show person. The female is moderate in frame, deep rib with loads of guts, big hipped and sound structured. B9 is homozygous polled and is ready to show. This One Jack female puts it all together. The Jokers Faith cow family has done a great job for Lazy H, Rolling Hills and her Trademark daughter continues to excel for our small program as well.

It's nice when the younger heifers will compete and this one most certainly will. While I have to admit we mated this one with a strong push on her numbers coming from this particular cow family and yet even with her high set of EPDs in every column as well as top 5 percentile in her dollar indexes, Sable managed to compliment her genetic value with a solid phenotype. Big bodied, thick topped, strong hiped, sound structured, quiet disposition, and a lot of bloom will all come to mind when you see her! This one, no doubt, will be fun in that purebred April class and the extra bonus is that she has a great sire and dam behind her.

This is a mating where not introduction is needed. Shelby x First Class. When we acquired this valuable high demand semen there was no contention as to which donor was being flushed first. This female has it all eye appeal, length and performance. She is a combination female by being back drop competitive yet pasture productive. These Shelby daughters are powerful like their mothers with that subtle amount of style from First Class. A mating of this caliber is hard to find. Serenity is out of the highest income producing female on the farm by the now deceased First Class who's semen has reached \$11,000 per unit. Truly a mating made among the stars.

Selling 3 embryos guaranteeing 1 pregnancy if implantations is performed by a certified embryologist.

This easy fleshing deep sided young cow posses exceptional width in a nicely balanced package. The dam of 3X was the Grand Champion Young Performance Cow of the 2009 Illinois State Fair Junior Show and Reserve Grand Champion cow/calf of the 2009 Illinois State fair Open show. 3X's first progeny demonstrate the unlimited value of this embryo offering. Her daughter by Dominance, a class winner at the 2014 Illinois Beef Expo Junior show, a possesses 3X's power in an eye appealing package with the show ring look. She has continued to be a competitor at the every show this summer and a crowd favorite everywhere. 3X's son by Steel Force offers power in a smooth made, eye appealing package and his flush sisters are sure to be very competitive in 2015. Full sibling CL/MAG Steel Magnolia B36 was a class winner, the early January class at the 2014 NAILE Junior Heifer show.

Selling 3 Sexed Heifer embryos guaranteeing 1 pregnancy if implantations is performed by a certified embryologist.

Everyone knows a great way to acquire elite genetics is to invest in frozen embryos. This is one of those good opportunities. Sloup Simmentals was a good supporter of the past AJSA Jr Nationals and donated a flush on Red Jewell and you know the results. Sloup Simmentals is offering three sexed heifer embryos out of Crown Jewel the dam of the \$46,000 Red Jewell which now resides as lead donor for Hilltop Simmentals. Red Jewell is one of the most admired red Built Right donors in the breed. The winner bidder will have some awesome full sibs. Again, sexed heifer embryos.

Selling 3 embryos guaranteeing 1 pregnancy if implantations is performed by a certified embryologist.

As many breeders know there are several elite Steel Force donor cows in the breed. One of the best is KenCo Steel Magnolia. This baldie female was the top seller at the KenCo Family Matters sale selling for \$14,500 going to Silent Night, David and Jane Maass in Texas. Steel Magnolia claimed many championship as a heifer and cow calf pair as well. Now as a donor she is just impressive as her picture. To top it off, a true testimony is the marketability of this donor. In past sales Diamond A, Sunny View and JRW have purchased a flush out of Steel Magnolia. Silent Night is offering three embryos guaranteeing one pregnancy by the Genex bull, SVF Allegiance. The EPDs will be great across the board and the future progeny will be awesome. Get involved in this long lived, predictable cow family.

No doubt this one carries on the BC Lookout tradition with lots of potential. Here's a sleek fronted, long bodied, deep sided bull with lots of bone. With the EPDs this one packs he will make an exceptional herd bull.

TF4 Locked In

With a sire that needs no introduction to the Simmental industry and a dam that has done nothing but great things for our operation, this young herd sire put it all together. A maternal brother sold in the 2013 Mid American Simmental for \$4,800, B23 offers all the same traits. He offers a great look from the side and offers a tremendous amount of length in the front 1/3, and is very good in the middle. Structurally it's hard to make any better, as he is angler in the shoulder, correct in the hip, and travels with ease when on the move.

CNS-HFS Uproar 406B

Uproar is a maternal brother to the great Pays to Dream bull. Both those bulls stem from a great factory, the K336 cow. At 14 years of age she is the cow all should compare to, ideal structure, excellent fertility, and quiet disposition. The Uprising bull has quickly gained popularity siring cattle that have the added look and presence we desire. The Uproar bull will turn heads. He's a stout featured bull with big rib shape and a very quiet disposition. Schick Cattle Company does retain a 1/3 semen interest in Uproar. The buyer is purchasing full possession and 2/3 semen interest

Full Force is a Steel Force son out of one of the rising Angus cows in the SimAngus breed. 3X has produced several very excellent show heifers in her very young career. A full sister to Full Force was a class winner at the 2014 NAILE Junior Heifer Show. With a blaze face you can see him coming across a pasture. Moderate made, deep sided, with a big level top, but still structurally correct in his makeup. Full Force will make a difference in the herd of any type of producer. Lots of cow power, performance, and he still has the show ring look.

MAG Pride 3X - reference dam

Semen will be auctioned off after the social/annual meeting on Friday Feb 20th at 6:30.

Contact Justin Alwardt, Doug Parke, Drew Hatmaker or any Illinois Simmental board member to submit a bid.

Shipping or pickup is responsible to the buyer. Proceeds go to the Illinois Simmental Association.
